Sub: Issues being faced by contractors and Suppliers due to COVID 19 Pandemic in your Department.

Respected Sir,

Builders Association of India (BAI), established in 1941, is the Apex Body of Indian Construction Industry having about 18,000 construction companies as its members with 180 Centres spread throughout the country. BAI acts as bridge between the Government and construction industry on the policy of the Government and contributes to economic development of the country. Quite a large number of our BAI members are also associated with your department.

The Government of India has been making all its efforts to help out the construction industry in this Covid-19 Pandemic situation and have announced many relief measures for the survival of the industry. Based on such relief measures from the Government of India, few departments, namely CPWD, NHAI and Railways have already notified and implemented such reliefs to Contractors' fraternity.

Your esteemed office was requested, vide our letter No. **Ref.:254 /J/2020-21 dated 31st July 2020 (letter enclosed for ready reference)** to extend such reliefs for contractors working in the state Goa. It will be highly appreciated if an early action is taken in the matter for the survival of the industry.

Thanking you,

Yours faithfully,

Mu. Moahan
President
Builders' Association of India

Encl.:- As above
